

## HTML & CSS Assignments

100 points: html code, css code and folder with media included. HTML code is your pure html website, similar to mine from lecture 2 with

100 points: link to PDF doc with Percentage for Codecademy "Learn HTML" Should be 100%

100 points: link to PDF doc with badges for CodeCademy.

100 points: Include Welcome button (coded with CSS) and leading to something welcoming (for example another page with one word: Welcome)

What to do and what to submit at the beginning of the next class

1. Read published on Blackboard (and Schedule) Fofanova lecture 1-4.
2. Buy or order the text book. We will need it next week. If you have a textbook – read Chapter 1 and 2. We do not need it yet, but there is so much materials to read in the future. Read it even you do not understand much
3. Download student's files from publisher website. This is code from the book. You do not want to spend your time typing code during class.

3. 300 points. Complete [www.codecademy.com](http://www.codecademy.com) Separate classes: Learn HTML; Learn CSS and Make a Website. Graded at the beginning of the class

4. 100 points. In Notepad ++ create index.html and style.css

Just watch two columns: 10 min;  
<https://www.youtube.com/watch?v=VAWcLQ19x9Q>

Create your first try of Portfolio for HTML and CSS module as two column website. Upload on Hostgator. Nothing to submit. Vendula will grade using your URL.
